PLANT & EQUIPMENT FINANCE

## Solving Your Plant & Equipment Finance Needs in Partnership Together

At Davenham Asset Finance, we have over 50 years of combined experience, playing a significant part in helping companies expand or get back on track after suffering a setback in performance. Instrumental to setting up or expanding a business is the investment of new and used plant and machinery.

With our positive outlook and partnership approach, combined with the flexibility of hire purchase and lease deals on funding from £15,000 - £350,000, Davenham can ensure your business reaches new levels by lending finance for acquiring plant and machinery vital for your clients success.

### Why Choose Davenham for Plant & Equipment Finance?

Our experience allows us to fund virtually any type of plant or machinery to any quality of credit on commercial terms to suit the needs of your client. We do this quickly and without fuss.

Helping Fund UK Business

## The Need

A construction rental business with previous trading failures, wanted to finance a JCB excavator for £145,000 + VAT.

## The Davenham Solution

We financed the excavator on a 48 month Finance Lease with a 10% initial rental and early accelerated rentals with the support of personal guarantees.

## The Need

A young business needed to finance an excavator for £34,000 from an auction house but the director was not a home owner.

## The Davenham Solution

We financed the excavator on a finance lease over 36 months with the support of the director's father as guarantor.
